AN AFFIRMATIVE ACTION EMPLOYER

---

**ADDENDUM NO. 1**  
**“BIDS FOR SNOW AND ICE CONTROL AT**  
**MINNEAPOLIS DEMONSTRATION GREENWAY”**

**Please see information below to update and clarify the original specifications.**

1. Snow removal- Are we able to create a snow bank for removal at incremented times? **Yes.** OR are we required to remove accumulated snow each time we visit? **No.**
  - a. There is a small section that mentions “removal (as requested)”.
    - i. If this is the case, is there an area within a block that we are allowed to create a snow bank? **Yes, in the event that removal becomes warranted.**
    - ii. And would we have additional access to the block to have larger vehicles come in for the removal ( i.e. dump container). **Yes, there is access for larger vehicles.**
  - b. Section E of the instructions may explain this, but I need more clarification.
2. City Plowing – looking at how the street is set up between each area (30<sup>th</sup> to Lowry, 35<sup>th</sup> to 36<sup>th</sup>) will the city plow be going through either of the blocks, or will the contractor be required to fully plow each block? I noticed that 35<sup>th</sup> to 36<sup>th</sup> is fully blocked currently for no vehicle traffic. **The City will plow a minimum of one vehicle lane on each of the two blocks, including 35<sup>th</sup> to 36<sup>th</sup>.**
